On behalf of Thomas A. Hulsey, CSE

To Whom It May Concern:

It has been a pleasure working with Tom Hulsey the last two years. Tom has built a strong relationship with the Chickasaw Nation and its wholly entity, Global Gaming Solutions. We view Tom as a strategic business partner, not a "vendor." Tom was very patient with his understanding of our security needs. Because he understood our business, he understood our schedule and was very responsive to changing business schedules and requirements.

To develop an effective solution requires creativity, flexibility and above all, the ability to work with a team. He brought together the required resources to develop and deploy a video surveillance solution that brought immense value to The Chickasaw Nation. We found Tom to be reliable and creative in crafting the final solution. We trusted Tom and he demonstrated considerable leadership skills.

As a Consultant, Tom not only actively pursued business opportunities, but also had a genuine interest in what was best for The Chickasaw Nation; we greatly appreciated Tom's effort in this regard. We especially appreciated Tom's willingness to pursue avenues with us that could not directly benefit him. He provided important insights to security that we are still pursuing today.

From my perspective as a client, Tom Hulsey is the consummate professional. He has all the attributes I demand as a client. He is professional, responsive, and competent and he understands our business. Above all, his integrity is beyond reproach. His high ethical behavior has always stood out as one of his outstanding traits: in business, that is invaluable. It is one of the reasons I continue to do work with Tom and have stayed good friends.

With best regards,
